Consent 2: Recording the Visit and Using It for Teaching

You choose each option. You may say no.

How to use this form

This English form is the official consent that you sign. A Taglish reading aid can be read aloud to you, or you can read it yourself. The reading aid is not signed.

There is no official Filipino or Taglish translation of the NBO yet, so please ask about anything that is unclear.

Recording the visit helps the practitioner learn, and it helps us teach. Reviewing real practice is a main way professionals and parents learn the NBO. Recordings are for **educational purposes only**. Please choose what you are comfortable with. Saying no does not change the rest of your visit.

Who may use the recording ("the Centers")

- **ConnectEd Kids Therapy Center** (legal name: ConnectEducation Kids Therapy Center)
- **CORE** (Center For Occupations, Rehabilitation, and Early Intervention), operated by Connected Journeys, Inc.
- **SPACES by ConnectEd Kids**

The Centers use it only for the teaching purposes you choose below.

What would be recorded

- Video and/or audio of the visit, which may include your baby uncovered or in a diaper, your voice and face, and the voices of family members present.
- You choose the framing. For example, the camera can show only your baby and hands, with parents out of view.

What the recording is used for

- The practitioner's **own learning and self-review**.
- **Feedback** from the practitioner's NBO certification mentor, if you choose below.
- **Teaching at the Centers**, if you choose below: short clips shown in trainings, courses, seminars, workshops, supervision and mentorship, and parent education, in person or in live online sessions.

What it will never be used for

- It will **not** be posted online or on social media.
- It will **not** be sold, used in advertisements, or given to anyone outside the Centers' teaching and the practitioner's mentor.
- It will **not** be shared as a downloadable file.
- It will **not** be used to judge you or your baby.

How it is protected

- Saved only to [SECURE STORAGE] and removed from the recording device.
- Labeled only with your baby's first initial and the date, never names.
- Kept for [RETENTION PERIOD] and then permanently deleted.
- You may ask to pause or stop recording at any time during the visit, and to delete the recording afterward.

Your rights under the Data Privacy Act of 2012 (RA 10173) apply, including withdrawing consent and requesting deletion. Contact the Center's Data Privacy Officer: info.connectedkidsph@gmail.com. If you withdraw, the recording will be deleted and no further teaching use will be made; clips already shown in a past session cannot be taken back.

Your choices

Baby's first initial / visit code (for the practitioner)	

A. Recording (tick one)

- ☐ Yes, video and audio
- ☐ Yes, audio only
- ☐ Yes, video only (no sound)
- ☐ Yes, video and audio, but only my baby and hands in the frame (no parent or family faces)
- ☐ **No recording.** I still want to take part. (Leave B and C blank.)

B. Who may view it (only if you ticked Yes in A)

- ☐ Only the practitioner, for self-review
- ☐ The practitioner and their certification mentor, for feedback

C. Teaching at the Centers (only if you ticked Yes in A)

- ☐ Yes. Short clips may be shown even if faces or voices can be recognized.
- ☐ Yes, but only if no one can be recognized (for example, blurred, cropped to baby's hands, or audio only).
- ☐ No. Use only for self-review (and mentor feedback if ticked in B).

I understand that this consent is separate from the participation consent, that each choice is voluntary, and that I can withdraw it at any time.

Language used to explain this form: ☐ English ☐ Filipino ☐ Taglish (reading aid read aloud) ☐ Taglish (read by the parent) ☐ Other: _____

Parent / legal guardian: signature over printed name Date

Licensed practitioner: signature over printed name Date

Give a copy to the family. Keep the original in the private records.
