Visit Script and Phrase Bank (English | Taglish)

For the practitioner. Say these in your own words.

Before the visit

Check yourself (practitioner AMOR)	Check the setup
☐ Am I calm? ☐ Am I curious to learn, not just to teach? ☐ Am I open to this family and what is happening? ☐ Am I ready to respond to their experience now?	☐ Consent 1 signed; recording and teaching choices noted ☐ Baby and Family Information Form on file ☐ Lights soft, baby at the center, family close, tools within reach ☐ Flashlight, rattle, red ball, clean gloves, sanitizer, spare blanket, pacifier if parents use one ☐ Hands clean. Phone on silent

Script

Moment	English	Taglish
1. Greeting	“Good day, and thank you for welcoming me. May I wash my hands first? Is this a good spot for us to sit?”	“Magandang araw po, at salamat sa pagtanggap sa akin. Puwede po bang maghugas muna ako ng kamay? Dito po ba maganda tayong maupo?”
2. Say who you are	“I want to be upfront: I am an NBO trainee, working toward certification, and these visits are part of my training. That is why they are free. Thank you for helping me learn.”	“Gusto ko pong maging tapat: isa po akong NBO trainee, patungo sa certification, at bahagi ng training ko ang mga visit na ito. Kaya po libre. Salamat po sa pagtulong sa akin na matuto.”
3. Set the goal	“Over the next little while, I would like to learn about your baby together with you: what she can do, what she finds hard right now, and what she needs from you. Let’s see what she would like to tell us through her behavior.”	“Sa susunod na mga sandali, gusto ko pong makilala ang baby ninyo kasama kayo: ano ang kaya niya, ano ang mahirap para sa kanya ngayon, at ano ang kailangan niya sa inyo. Tingnan natin kung ano ang gusto niyang sabihin sa atin sa pamamagitan ng behavior niya.”
4. Not a test	“This is not a test, and there is no pass or fail. You know your baby best, and I would love to learn from you.”	“Hindi po ito test, at walang pasado o bagsak. Kayo po ang pinakakilala sa baby ninyo, at gusto ko pong matuto sa inyo.”
5. Prepare for crying	“Nothing we do is painful. Many babies cry at some point, like when they wake up or get changed. If she cries, we will comfort her together. How do you feel when your baby cries?”	“Walang masakit sa anumang gagawin natin. Maraming baby ang umiiyak sa isang bahagi, tulad ng paggising o pagpapalit ng damit. Kung umiyak siya, sabay nating papatahanin. Ano po ang nararamdaman ninyo kapag umiiyak ang baby ninyo?”

Moment	English	Taglish
6. Ask what they have noticed	“What have you noticed about your baby so far?”	“Ano po ang napansin ninyo sa baby ninyo sa ngayon?”
7. Watch quietly	“Let’s just watch her for a moment. What do you see?”	“Pagmasdan muna natin siya saglit. Ano po ang nakikita ninyo?”
8. Light and sound (baby asleep)	“I will shine a soft light near her closed eyes, and shake the rattle a little away, to see how well she can keep sleeping. Would you like to help?”	“Magpapailaw po ako nang banayad malapit sa nakapikit niyang mata, at iuugoy ang rattle sa kaunting layo, para makita kung gaano niya kayang ituloy ang pagtulog. Gusto po ba ninyong tumulong?”
9. Uncovering	“Is it okay if we uncover her for a moment? The room is warm. Tell me if you would like me to stop.”	“Okay lang po ba na tanggalan muna natin siya ng kumot saglit? Mainit-init po ang kuwarto. Sabihin ninyo kung gusto ninyong huminto ako.”
10. Movement and reflexes	“Now I will gently see how she moves and how her reflexes work. You may see her turn her head and suck. Those are built-in reflexes that help her feed.”	“Ngayon po ay dahan-dahan nating titingnan kung paano siya gumagalaw at kung paano gumagana ang reflexes niya. Maaaring makita ninyong lumingon at sumuso siya. Likas na reflexes iyon na tumutulong sa kanyang kumain.”
11. Invite the parent to call the baby	“Would you like to call her name from this side? Let’s see whether she turns to your voice.”	“Gusto po ba ninyong tawagin ang pangalan niya mula rito? Tingnan natin kung lilingon siya sa boses ninyo.”
12. Celebrate a moment	“Look at how she turned to your voice. She knows you!”	“Tingnan po ninyo kung paano siya lumingon sa boses ninyo. Kilala po niya kayo!”
13. If she cries: comfort in steps	Go gently, one step at a time, and give her time to settle on her own first: 1. Look at her and talk to her 2. Rest a hand on her tummy 3. Hold her arms and legs 4. Pick her up 5. Rock her 6. Swaddle her 7. Offer something to suck (if parents use a pacifier)	Dahan-dahan, isang hakbang bawat pagkakataon, at bigyan muna siya ng oras na kumalma mag-isa: 1. Tingnan at kausapin siya 2. Ipatong ang kamay sa tiyan niya 3. Hawakan ang mga braso at binti niya 4. Buhatin siya 5. Ugain siya 6. Lampinan siya 7. Bigyan ng masususo (kung gumagamit ng pacifier ang magulang)
14. Reframe a worry	If a parent says “she is angry at me” or “he is spoiled”: “It looks to me like she is overwhelmed and asking for help settling. What do you think?”	Kung sinabi ng magulang na “galit siya sa akin” o “spoiled siya”: “Sa tingin ko po ay na-o-overwhelm siya at humihingi ng tulong para kumalma. Ano po sa tingin ninyo?”
15. Pause or stop	“I notice she is getting tired. Let’s give her a rest.”	“Napapansin ko pong napapagod na siya. Magpahinga muna tayo.”
16. Talk it over	“Here is what I noticed: [strengths]. She found [challenge] harder right now. What would you add? What stood out to you?”	“Ito po ang napansin ko: [mga lakas]. Medyo mas mahirap sa kanya ang [hamon] sa ngayon. Ano po ang idadagdag ninyo? Ano ang namukod-tangi sa inyo?”

Moment	English	Taglish
17. Just a snapshot	“This is just a snapshot of one moment. She will keep changing, and I would love to hear what you notice.”	“Snapshot lang po ito ng isang sandali. Patuloy siyang magbabago, at gusto ko pong marinig kung ano ang mapapansin ninyo.”
18. Parent Summary	“Shall we write this together, as if your baby were talking to you? What does she like? How does she tell you? What is hard for her right now? How does she tell you? How can you help?”	“Isulat po natin ito nang magkasama, na parang kausap kayo ng baby ninyo? Ano ang gusto niya? Paano niya sinasabi sa inyo? Ano ang mahirap sa kanya ngayon? Paano niya sinasabi? Paano ninyo siya matutulungan?”
19. If something worries you	“I noticed [observation]. It may be worth mentioning to her doctor. What do you think?” (Never diagnose. Leave the decision with the parent.)	“Napansin ko po ang [obserbasyon]. Baka makabuti pong banggitin sa doktor niya. Ano po sa tingin ninyo?” (Huwag mag-diagnose. Ipaubaya sa magulang ang desisyon.)
20. Close	“Thank you for sharing your baby with me. Do you have any questions? Would you like a second visit later?”	“Salamat po sa pagbabahagi ng baby ninyo sa akin. May tanong pa po ba kayo? Gusto po ba ninyong mag-schedule ng ikalawang visit sa susunod?”
Day before: reminder message	“Hello! A reminder about your baby’s visit tomorrow at [time]. Please feed your baby shortly before if you can, and have a warm, quiet space ready. Message us if you or your baby are unwell and we will reschedule.”	“Hello po! Paalala lang po tungkol sa visit ng baby ninyo bukas ng [oras]. Pakainin po ang baby bago ang visit kung kaya, at ihanda ang mainit-init at tahimik na lugar. Mag-message po kayo kung may sakit kayo o ang baby at ire-reschedule namin.”
After: thank-you message	“Thank you for welcoming us today. It was a pleasure to get to know your baby. If you have any questions, or would like to share feedback, message us anytime. A short feedback form is attached; it is optional.”	“Maraming salamat po sa pagtanggap sa amin ngayon. Isang karangalan pong makilala ang baby ninyo. Kung may tanong kayo, o gusto ninyong magbigay ng feedback, mag-message lang po anumang oras. Kalakip ang maikling feedback form; opsyonal po ito.”

What not to say

Avoid	Say instead
“Normal” or “abnormal”, “pass” or “fail”	“She did X. Here is what that tells us about how she likes to be helped.”
“Your baby is behind” or “ahead”, or comparing with other babies	“This is where she is today. Babies change quickly.”
“You should…” or “You must…”	“Some parents find that…” or “What do you think might help?”
Diagnosis or medical advice	“That may be worth mentioning to her doctor.”
Promising results	“This may help you understand her better.”

After the visit

1. Complete the Recording Form, label it with the baby's first initial, gestational age, and age at the visit only. Tick the items you observed.
2. Photograph the Parent Summary before the parent adds the baby's name. Show only the first initial. Give the original to the family.
3. Write the Narrative the same day or next day, while it is fresh.
4. Update the Tracker (16) and, if recorded, follow the Recording Protocol (17).
5. Complete the fidelity self-reflection in the Tracker.
