Parent Checklist

Getting ready for your free NBO visit

Quick answers

Cost: Nothing. Free for you.

Special requirements: None required. If you need anything special (language, access, feeding, timing), just tell us. See the Accommodations Form (08).

You do not need to buy or prepare anything fancy. Just bring what you normally use for your baby.

A few days before

- ☐ Read the Information Sheet (05) and the consent forms. Write down any questions.
- ☐ Choose a time when your baby is usually calm, ideally shortly after a feed. A calm or sleepy baby is ideal at the start.
- ☐ Decide who will join. A parent or another family member must be present throughout.
- ☐ Tell us if you would like the visit in English, Filipino, or Taglish, or need an interpreter.
- ☐ If your baby had a vaccine or medical procedure recently and seems sore or fussy, tell us so we can move the visit.

On the day: your baby

- ☐ If you can, feed your baby shortly before so your baby is content. If your baby is hungry or awake when we start, that is fine; we go with your baby's lead.
- ☐ Dress your baby in something easy to take off and put back on.
- ☐ Keep your baby's usual routines as much as possible.

On the day: the space

- ☐ A quiet room with softer lights (curtains or lamps work well). Switch off the TV and music.
- ☐ Warm and comfortable, because your baby will be briefly uncovered. Avoid a fan blowing directly on your baby.
- ☐ A firm, flat surface such as a bed, a mat, or a table covered with a clean blanket.
- ☐ Seating close to your baby so you can see and touch your baby.
- ☐ Phones on silent. Pets in another room.

Please bring or have ready

- ☐ Your baby's blanket and pacifier, if your baby uses one
- ☐ Diapers, wipes, and a spare set of clothes
- ☐ Anything you need to feed your baby (breast, bottle, or other)
- ☐ Your baby's birth details if handy (birth weight, gestational age at birth). This is optional and helps us fill in the form accurately.
- ☐ Your questions, or notes on what you have noticed about your baby

What I bring

- A small flashlight, a rattle, and a soft red ball (the observation tools)
- Clean gloves and hand sanitizer
- A spare soft blanket

- The forms and a pen

Please reschedule if

- You or your baby have a fever, cough, cold, diarrhea, or any illness.
- Anyone in the home is unwell. They should not attend.
- Your baby is sore or very fussy after a recent vaccine or procedure.

Just message us. Rescheduling is never a problem.

Your choices on the day

- You may stop or pause at any time.
- You may say no to any part, including undressing or recording.
- Your baby's comfort comes first.
