Consent 2: Recording the Visit

Optional. You can say no and still take part.

Recording the visit helps me learn. Reviewing my own practice is an important part of my NBO training. **You do not have to agree.** If you say no, you can still take part in everything else.

What would be recorded

- Video and/or audio of the visit, which may include your baby uncovered or in a diaper, your voice and face, and the voices of family members present.
- You choose the framing. For example, the camera can show only your baby and hands, with parents out of view.

What the recording is used for

- My **own learning and self-review** as an NBO trainee.
- If you choose below, my certification mentor, **[MENTOR NAME]**, may view it to give me feedback.

What it will never be used for

- It will **not** be posted online or on social media.
- It will **not** be sold, used in advertisements, or given to anyone else.
- It will **not** be shown in my parenting class or training sessions unless you also agree in **Consent 3**.

How it is protected

- Saved only to [SECURE STORAGE, e.g., password-protected or encrypted device or drive] and removed from the recording device.
- Labeled only with your baby's first initial and the date, never names.
- Kept for [RETENTION PERIOD] and then permanently deleted.
- You may ask me to pause or stop recording at any time during the visit, and to delete the recording afterward.

Your rights under the Data Privacy Act of 2012 (RA 10173) apply, including withdrawing consent and requesting deletion. Contact the Center's Data Privacy Officer: info.connectedkidsph@gmail.com.
